#### Notes.

**1. Other options.** We also offer correspondence courses for the other Advisory, Awareness and Application & Interaction papers. Classroom courses for these other options are available in London. Please see our website [www.tolleytraining.co.uk](http://www.tolleytraining.co.uk) for full details.

**2. The traditional correspondence course** includes hard copy manuals, questions banks and access to our Online Academy from where you can download our audio – visual lectures. It also includes home study examinations which can be attempted and submitted to us for marking.

**3. The online correspondence course** provides all of the benefits of the correspondence course above but you will not receive hard copy manuals or question banks. The manuals can be viewed on the Online Academy and printed on a chapter by chapter basis if necessary. Please note that if you would like to attend a modular course you will need to print out all relevant manuals, and therefore it may be more cost effective to purchase the traditional correspondence course.
