Tolley Exam Training

ONLINE SUPPORT SESSIONS

Tolley's Online Support Sessions are bite-size recordings from our expert tutors, providing you with overviews on key topics within the syllabus and question debriefs.

How do they work?

Tolley's Online Support Sessions are pre-recorded sessions run by our expert tutors covering key topics within the ATT and CTA syllabus. The sessions vary in length and are ideal if you need to recap on some areas, or understand in more detail some of the trickier topics that are found within your paper.

Some recordings are relevant to a number of different ATT and CTA exams and a summary of the sessions available and the exam papers these relate to can be found on our website.

You can choose any combination and any number of Online Support Sessions to help support your studies. All of the sessions are available on-demand so you can access them at any time and re-watch them if you wish.

What sessions are available?

You can choose from two types of Online Support Session:

- Coverage of key syllabus topics
- Question debriefs where tutors work through three exam-style questions to help you improve your technical skills as well as guide you on exam technique
